# BIO

With over 15 years of experience leading large, complex technical, non-technical, and operational programs, I am a portfolio and program executive who translates strategy into disciplined execution across highly regulated environments, including healthcare, academia, energy, environmental management and government.

My career foundation includes senior project leadership within the U.S. Department of Energy's Office of Environmental Management, delivering technology program supporting environmental compliance, risk oversight, and operational reporting, followed by leadership of various enterprise-scale transformation initiatives across healthcare systems, academic institutions, and federal agencies.

I have led multi-million-dollar portfolios, coordinated diverse global stakeholders across public and private sectors, and partnered with senior leadership to deliver scalable systems, governance frameworks, and performance models that operate effectively in complex, high-stakes environments. My work spans the United States and Africa, with experience supporting institutional growth, workforce development, and long-term operational sustainability.

My experience includes engagements with esteemed organizations such as **Yale University, Yale Health, US Food & Drug Administration (FDA), US Health & Human Services (HHS), US Centers for Medicaid & Medicare (CMS), DelYork Group International, Department of Energy and their global partners** where I have honed my ability to deliver solutions across diverse teams.

## INDUSTRIES

**Regulated Operations | Healthcare & Health Systems | Academia | Public Policy | Government & Public Sector | Enterprise IT & Digital Transformation Energy & Environmental Management**

# KEY ACHIEVEMENTS

Spearheaded the establishment of the Inaugural Presidential COVID Response Knowledge Management Taskforce - White House/HHS Federal Government at the onset of the pandemic.

Led delivery of a mission-critical technology program within the U.S. Department of Energy's Office of Environmental Management, supporting environmental remediation oversight, regulatory compliance reporting, and governance across high-risk energy operations.

Led the development of a comprehensive 10-year investment Strategy and Roadmap for HHS's Digital Healthcare Research Program aligning strategic goals to digital healthcare innovations, leading to full agency adoption.

Realized \$4 million in cost avoidance through proactive risk management & mitigation strategies earning the Organizations Risk Leader of the Year Award.

Led key successful transition to the enterprise-wide testing platform at Yale University, reducing infectious disease transmission by 25%.

Designed and implemented executive reporting and performance dashboards supporting environmental compliance, operational risk management, and audit readiness within a federally regulated energy environment.

Designed and operationalized an executive balanced scorecard for a \$50M+ portfolio—combining financial KPIs, program completion rates, and impact measures—driving a 15% improvement in program performance.

Established and spearheaded the implementation of FDA enterprise-wide regulatory and compliance program, overseeing service and technology performance across 240 O&M global IT projects and programs spanning all divisions elevating agency's compliance adherence by 30%, through introduction of rigorous quality assurance mechanisms and comprehensive process audits, ensuring alignment with the highest standards of regulatory excellence.

# HOW I DRIVE CHANGE

## **INCLUSIVE LEADERSHIP**

I have a proven track record in building bridges between boardrooms and underserved communities, leveraging data, empathy, and grit to lift stakeholders at every level. I thrive on leading diverse senior teams, relationship building, fostering collaboration, gaining buy-in, and driving strategic initiatives to successful completion. My leadership style emphasizes mentorship, empathy, enthusiasm, accountability, diplomacy, and transparency across multiple diverse work groups and highly-matrixed structures.

## **STRATEGIC VISION & EXECUTION**

Architecting end-to-end solutions for federal (FDA, HHS, DOE, CMS), private (Yale University & YaleHealth), and global social impact initiatives—including development across Africa. Demonstrated ability to anticipate future consequences and trends, integrating them into both short-term & long-term organizational plans.

## **OPPORTUNITY CAPTURE**

Master of competitive RFPs, multi-million-dollar portfolio management, and operational streamlining that delivers measurable ROI.

## **PROCESS IMPROVEMENT**

Experienced in identifying business opportunities, facilitating process design changes, continuous integration & delivery, and executing process improvement initiatives that deliver sustainable, repeatable, and quantifiable business process improvements whilst resolving bottlenecks, optimizing resource allocation, improving task transparency and delivery times.

## **CROSS-FUNCTIONAL COORDINATION**

I excel in connecting management processes, key initiatives, and other endeavors across organizations and various work groups to foster an enterprise approach to solving business challenges and creating value.

## **EXECUTION**

My strong analytical skills, technical skills, innovative thinking, and problem-solving abilities will support the effective execution of strategic initiatives.
